The Great North Salt Lake Scheme Revealed.

SOUTH OMAHA TO BE REPEATED.

Union Stock Yards, Iron and Smelting Works, a Driving Park and a Motor Line-A Manufacturing District.

The great North Salt Lake manufacturing scheme which Tur Herald has repeatedly mentioned is at last revealed.

It is so vastin its proportions and sweeping in its projections that the mere announcement of its purposes will create a ensation and set property values rocking to adjust themselves to the new order of While the Commercial street extension was big enough to occupy the thoughts of many men in this community, the gigantic scheme of organizing a manufacturing district and establishing a popuous city in North Salt Lake was quietly

The scheme is nothing less than to repeat here what was accomplished at Omaha. The following facts were learned from W. C. B. Allen, one of the leaders in the

important real estate transfer was made Tuesday. This was the second move being made by two or three large syndi-cates, who are preparing to establish SOME IMPORTANT ENTERPRISES

orth of the city, and to organize a manu north of the city, and to organize a manufacturing district, establish union stock yards, iron and swellting works; open up a new addition and a driving park; build a suburban motor line, etc. This sale includes 540 acres of level land adjoining the Cooper farm, recently sold for \$150,000, and which was made to W. C. B. Allen and associates for the sum of \$56,000. Out of this tract it is proposed to reserve from eighty to one hundred acres for manufacturing sites, to be used under the auspices of the chamber of commerce as a bonus for such chamber of commerce as a bonus for such enterprises as may be deemed worthy of endorsement. Certain conditions, of course, will be required by the chamber of com-merce to secure free manufacturing sites, but the movement is in the right direction. From other sources it is learned that three syndicates control 2,200 acres of land in one solid tract, and that the purpose of this generous grant to the chamber of com-merce is with a view to sell their lots to

THE THOUSANDS OF LABORERS that will be employed at the stock yards and in the rolling mills, smelters and other manufactories.

The extension of the electric street rail-way to Hot surings is a part of this plan, as it will be within two miles from the

seart of the proposed manufacturing dis-

The sale of the Cooper farm and the driving park scheme, which was published exclusively in The Herald several weeks ago, was but another adjunct of the great manufacturing district.

W. C. B. Allen was for five years secretary of the Omaha board of trade, and at the time that certain individuals quietly

the time that certain individuals quietly bought large tracts of land south of that city from the farmers at a small acreage price. Placing it in a large syndicate, they sold \$5,00,000 worth of property from it during the first three years of their exist-

WHAT THE STOCK YARDS DID FOR OMAHA The location of the Union stock yards on his land built up a city as if by magic. the Union stock yards and the various acking companies give employment to rom 2,200 to 3,000 men. The building irades give employment in season to about 600 men. During 1889 there were erected 106 structures, valued at \$412,106. The Omaha cooperage works are now in operation, giving employment to a large number of men, having a capacity of 700 tierces per

During 1889 there were carried on the Union Pacific suburban trains 404,337 pas-tengers between South Omaha and Omaha. Nothing has contributed more to the sub-stantial and rapid growth of Omaha than stantial and rapid growth of Omaha than the extensive stock yards and packing houses. The yards now have a capacity for 10,000 cattle, 25,000 hogs and 6,000 sheep. Fifty-three acres of ground are covered by pens and tracks. Three locomotives are used for switching the cars in the yards. The aggregate cost of the buildings and squipments of the four large companies extends \$2,000,000, independent of the value of the ground occupied by the plants.

During the season of 1888-80, Armour-Cadaby Packing company packed

Cudahy Packing company packed 159,331 hogs, of an aggregate value of \$5,051,541, and 46,349 cattle of an aggregate value of \$500,155, and 9,489 sheep, of an aggregate value of \$23,722, the year's business aggregating over \$6,000,-

Another concern, the Omaha Packing company, killed 311,445 hogs during the

Swift Bros.' buildings cover three acres and have a capacity for 1,000 hogs a day.

The Hammond company killed 157,898 hogs, 66,768 cattle and 11,099 sheep.

The total slaughter of these four houses for the past year were 1,020,088 hogs, 134,427 cattle and 49,249 sheep.

Total number of men employed in four packing houses, 2,442; estimate of wages paid during the year, 21,475,000.

While Salt Lake cannot expect to equal his record it can take care of the hog product of Utah as well as that of Wyoming and other territories and snatch a few

and other territories and snatch a few porkers from western Nebraska.

What the North End manufacturing company will lack in beg it will more than make up in the manufacture of iron and in its great lead smelters. The value of roll mili to a city was given in Sunday' Herald so that any allusion to their contributions to the wealth and population of city is unnecessary here.

May the North End boom, and every other end of this never-ending city.

New York Stock Exchange.

New York Stock Exchange.

New York, April 2.—The stock market to day was, as far as its tone goes, a repetition of that of yesterday; there was more activity and a strong tone and much more pronounced. The most significant movement was in Big Four, which, with other Vanderbilts, moved up rapidly on large business for that stock on the report that the Vanderbilts had secured control of the Chreimati, Wabash & Michigan, which will be operated by the Big Four, and a traffic agreement had been formed with the Mackey system, which would be a benefit to both parties concerned. The upward movement made good, though slow, progress through the whole list, and almost everything traded in to-day shows fractional gains at the close.

Governments steady.

THE ABILITY TO BEAR PAIN

Is the test of fortitude among the Indian tribes. But we defy any Cherokee, Sloux or Comanche to endure the twinges of rheumatism without wincing. These, indeed, are slight at first, but grow in intensity until they become unbearable. No malady is more obstinate in its maturity than that which gives rise to them. The more need, then, of attacking it at the outset. Foremost among remedies for it is Hostetter's Stomach Bitters, safer and infinitely more effective than colchicum, veratrum and nux vomica, all remedies which might prove destructive of life in a slightly excessive dose. Mineral depurents, also, when not positively mischievous, are far inferior in remedial power to this salutary botanic medicine. It entirely expeis from the blood the acrid impurities which originate the disease, and enriches as well as cleanses it. Constipation, liver complaint, dyspepsia and other aliments also give way to it.
